MARCH 1934

VOL. XVII — No. 5

## In five places at once —*by telephone*

Conference telephone service—a new telephone convenience—enables a number of people far apart to talk together as freely as though gathered around a table.

This fosters quicker interchange of ideas in business—saves time and money—expedites decisions. For example: an executive wishes to discuss plans with his district managers. His telephone is connected *simultaneously* with each of theirs—all can talk, all hear everything that is said!

Through constantly developing new uses, Bell System service grows more and more valuable.

### BELL TELEPHONE SYSTEM
